 Better people make better Dynamics projects

Microsoft Partners that we support

“Jamie provided contract resource and he took the trouble to come and meet the team before placing anyone to understand the culture and fit. He took time to understand the roles required. Jamie is commercially aware and understands the various dynamics at play in building teams. He was attentive and conscientious to both employee and employer, aiming to ensure both sides “win”. I will happily work with Jamie again for his high standards, customer care and knowledge of the MS Dynamics landscape.”

Programme Manager

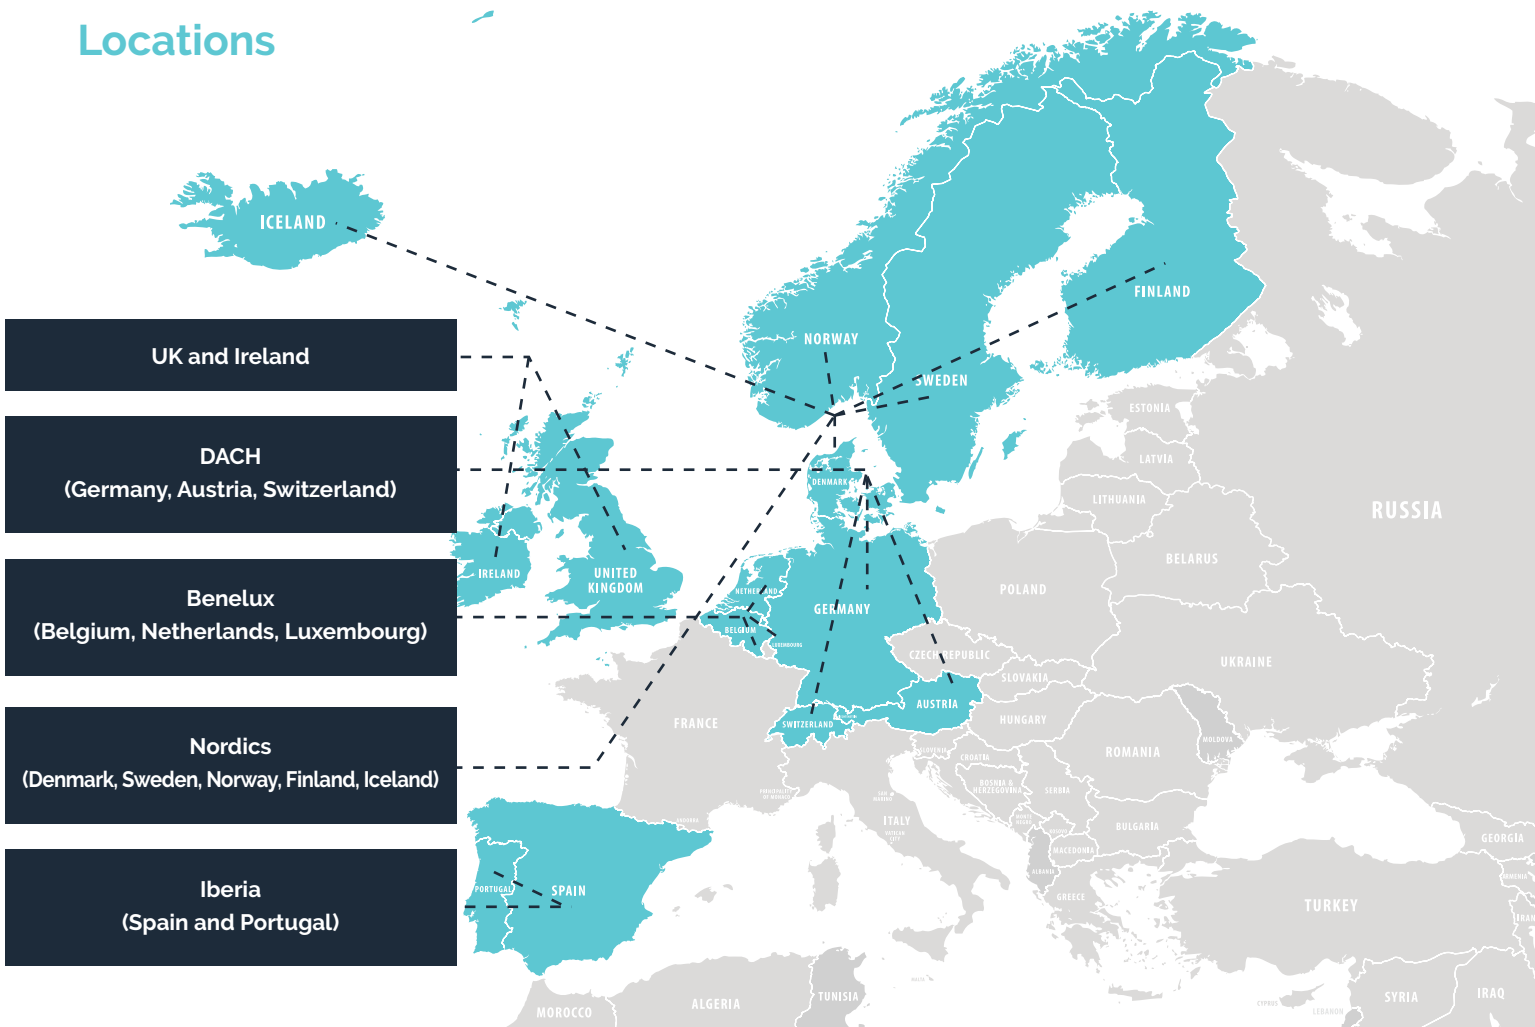

“We worked with Jamie on one opportunity, but that was enough to let me understand how he stands out. He gets in connection with the candidate and understands their personality, so he would be able to present them properly to the employer. His clients trust his opinion on the candidates and we’re really happy to know Jamie!”

Dynamics 365 Supply Chain Consultant

“Jamie listens carefully, works proactively and supports people through the whole process, always checking in and being available for any questions. Transparent, full of passion and dedication. I would recommend Jamie to any professional in the D365 world.”

Dynamics 365 Finance Consultant

| Talent | |

"Jamie is one of the few recruiters who act in the most professional manner being in constant touch and providing all necessary feedback. He is certainly the recruiter you would wish to deal with in future and I can't recommend him high enough to prospective employers and job seekers."

D365 Finance Consultant

"I had the pleasure of dealing with Jamie whilst I was looking for a specific specialist type role. If I ever need any recruitment, he's on hand and his after-placement support was exemplary. Top bloke and I recommend him to every person."

Senior Finance and Operations Consultant

"I have worked with Jamie both as a potential candidate but also for staffing needs. Jamie is excellent in finding good opportunities. He is extremely focussed on getting the right people to the right companies"
